

Fun Hangers

Materials you need:

Wooden hangers, stretchy material, wool, scissors, needle and thread, filling material (see below)

To decorate the hangers you could use: beads, ribbons, feathers, fur, wool...

1 Measure the length of the hanger and cut a piece of stretchy material the same length and about 3x wider than the hanger.

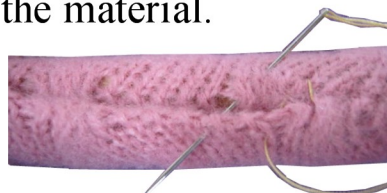

2 Fold the material lengthwise in half and sew both sides together.

3 Mark the middle of the material.

4 Poke the metal bit of the hanger through the material

5 Sew the bottom of the material close. At the end "sew up". That means do several more stitches so it holds.

8 Cut a hole in the top of the head and poke the hanger through.

6 For the head make a paper pattern and cut a head from stretchy material.

7 Sew around the edge (except for the bottom) and turn inside out and fill the head (see below).

9 Sew head onto hanger then decorate.

Filling material for the head:

I usually keep any leftover materials in a jar and use them as filler.
